Experience

Product Manager - AI, Sourcy | Singapore (Remote) | Feb 2026 - Present

Agentic sourcing platform for founders building D2C brands developing highly custom products

- Led development of the orchestration layer of Sourcy's customer facing agentic product (**200 conversations/day**), reducing human involvement and reducing per request TAT by **>70%**
- Built the evaluation framework (**50+ golden traces**, LLM-as-judge rubric) used to gate skill changes and product updates for the orchestration layer responsible for decision making across **7 agents**
- Developed **18+ workflow** internal conversational agent for the growth team, facilitating BAU automation
- Built a multi-agent pipeline that pulls live signals from **6 e-commerce/social data providers**, clusters them into ranked product trends, and auto-publishes branded reports to a live URL, replacing a manual research workflow across **4+ market/category launches**
- Designed a self-updating, cross-linked knowledge base (**98+ trend files**) with a chat interface so non-technical teammates can query trend history in natural language

Product Manager, Jar | Bengaluru | Aug 2024 - Dec 2025

Leading GenAI initiatives & working on activation charter to help users get onboarded and familiarised with Jar

- Managing product feature planning and agile execution for a team of **6 Product Managers and 18 Engineers**
- Spearheaded app-localisation, improved process efficiency by **12x** by implementing in-house AI solutions
- Led the product roadmap for IPL to boost engagement and activation, leading to **5% GMV uptick**
- Improved Week zero retention by **2.1%** and engagement by **1.7%** by cleaning up the home feed for new users
- Reduced W0 cancellations by **0.2%** and Mandate updates by **1.07%** by introducing goal-based savings
- Achieved **0.2% uptick** in setups and reduced cancellations by **0.3%** by adding a contextual entry point for DS

Product Manager, Unacademy | Bengaluru | Mar 2024 - Aug 2024

Led activation, retention and conversion charters for Unacademy's Online learning product

- Successfully revamped plan selection experience, achieving an improvement of **12%** in organic conversion
- Led the integration of Google Play billing system into the existing payments infrastructure of Unacademy to prevent the de-listing of the app from Google Play store owing to change in payments policies
- Achieved **~INR 20 million** in annual savings in PG costs by establishing UPI as the primary payment mode
- Improved signup-to-engagement conversion by **11%** by revamping the free classes consumption experience
- Enhanced app performance by **57%** by reducing load times on the most-visited pages (~150K daily visits)
- Increased content consumption from the Educator profile by **18%** through improved information architecture and content ordering

Associate Product Manager, Unacademy | Bengaluru | Jun 2022 - Mar 2024

Part of the Growth & Payments POD, overseeing flows and infra for INR 500+ million monthly GMV

- Introduced Unacademy Store to sell individual entities from the subscription product at a lower price. Scaled revenue from Store from zero to **INR 320 million** by working with cross functional teams
- Increased conversion through Daily Scholarship Test by **120%** by reducing result generation time to zero
- Cut down the monthly costs by **INR 20 million** by limiting credit usage on the Unacademy platform
- Improved learner referral conversion by **18%** by recommending coupon codes to users in checkout flow
- Hiked revenue contribution of loans by **67%** and reduced approval time by **90%** by integrating Bajaj Finserv

Education

BTech, Electrical Engineering, IIT Bombay | Mumbai | Jul 2018 - May 2022

- Served as Operations head at E-Cell, part of 20-member team of India's largest Uni-Entrepreneurship body
- Introduced first edition of Entre-MUN, a 2-day MUN conference with 4 committees and 60+ participants
- Revamped the Virtual Stock Market competition in association with BSE, with 10k+ participants
- Ideated and executed ACT, E-Cell's social initiative that prevented 100kgs+ of CO2 emission
